Features

This is our toughest, most durable pager yet.

The Rechargeable SlimLine Pager is a vibrating pager designed to work with Microframe's MultiPage Transmitter. The pager vibrates and the LED lights flash when paged.

The 30-Position Charger Base can be daisy-chained together with a second one to support up to 60 pagers. The SlimLine's "Smart-Charging" feature prevents over-charging the pager and allows it to charge quickly in 2 hours. It also has an Anti-Theft feature and an All-Call Alert. The rechargeable batteries are user-replaceable, guaranteeing no down time. The battery life is 3 to 5 years.

You can easily promote your products or notify patrons of special events with the SlimLine Customizable Advertising Insert.
